## ANNOUNCEMENT

**Well Academy Australasia has partnered with Venture Gulf Safety and Security to offer accredited IWCF training services in Qatar.**

Well Academy Australasia and Venture Gulf Safety and Security Training Centre, is pleased to announce their partnership, introducing IWCF training throughout Qatar.

Venture Gulf Safety and Security since 1996 is an industry leader in Occupational Health and Safety training. Having provided training for over three decades, transferring knowledge and practical skills to candidates across various industries.

Well Academy Australasia began operations in 1997, providing quality training in all aspects of Well Control including on the rig coaching. Well Academy maintain accredited training centres in Perth, Adelaide, Indonesia, New Zealand, Korea, Papua New Guinea, and regional centres throughout Australia. In addition, Well Academy operates dedicated training centres across both Europe and North America, delivering global training solutions to the energy industry.

The new centre in Doha, will provide access to quality drilling and well intervention training, developed and maintained in conjunction with experienced drilling engineers and industry professionals, providing a unique perspective for candidates in Qatar.

Lachlan Nally, Group COO commented, "This is an exciting collaboration, drawing on the strengths of each organisation, recognising our joint ability to deliver high quality accredited and bespoke training that is of relevance to our industry and throughout Qatar".

Sami Suleiman, Training Centre Manager commented, "There are certain training scenarios that require the collective efforts of multiple teams. We will work together and use our combined strengths to find solutions and reach our goals to deliver high quality training".
